

Jasper II

home cinema comfort seat

HOME CINEMA MODULES®
THE ULTIMATE HOME CINEMA EXPERIENCE

Introducing HCM Jasper II is part of the Comfort recliner collection. These recliners are perfectly engineered for style and comfort. Sit down and feel the ultimate in supportive comfort and design. These chairs hit all the right spots and women love them because of their size and proportion. Finally a recliner that does not overpower a room. Small scale, but big on function.

Have a need for power but need to float the chair in the room, then a cordless battery pack is available to perform that function discreetly away. Touch control power is hidden on inside seat so a gentle touch is all that is required to operate.

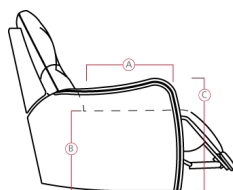

This model also offers optional blue LED lighted cupholders and baserail for a great experience.

Choose from a variety of colours and materials in either leathers or fabrics.

Features

- Hardwood, softwood and engineered wood products; all joints pinned & glued for uniformity & strength
- Back: Premium elastic webbing offers consistent suspension for the life of the product
- Seat: Interwoven 100% elastic webbing offers consistent suspension for the life of the product
- Chaise styling for ultimate comfort and support in full recline
- Touch button for power operation
- Stainless cupholder
- In-arm storage box in wedge and console

Dimensions

- A - Seat Depth - 22" / 56cm
- B - Seat Height - 19" / 48cm
- C - Arm Height - 24" / 61cm

How We Measure

Height - measured from the highest point of the back pillow to the floor.

Depth - measured from the front edge of the seat cushion to the top of the back.

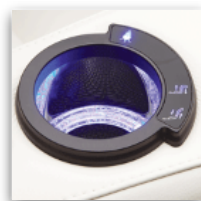

Width - measured from the widest point of the arm or arm pillow to the widest point of the opposite arm or arm pillow.

Arm Height - measured from the top of the arm to the floor.

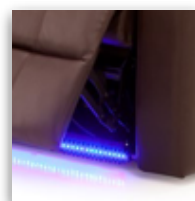

Seat Height - measured from the crown of the seat cushion to the floor.

For leather options see the upholstery sheet
